

Dhanush S

Software Engineer

+91 9710195006 — dhanushaurora369@gmail.com — LinkedIn Profile

Professional Summary

Motivated Computer Science undergraduate with strong foundations in software development, algorithms, and object-oriented programming. Experienced in developing applications using Java, Python, and modern web technologies. Passionate about building scalable software solutions, backend systems, and user-centric applications. Actively exploring full-stack development, system design, and open-source collaboration.

Education

College of Engineering, Guindy – Anna University

2024 – 2028

Bachelor of Engineering (B.E.) in Computer Science

- Coursework includes Data Structures, Algorithms, Object-Oriented Programming, Database Systems, and Software Engineering.
- Actively developing academic and personal projects to strengthen practical programming and system design skills.

Technical Skills

Programming Languages: Python, Java, C, C++, JavaScript

Frameworks & Libraries: React, Spring Boot, JavaFX

Databases: SQL

Tools & Technologies: Git, REST APIs, Object-Oriented Programming, Software Development Lifecycle

Projects

Music Player Application (JavaFX)

- Developed a desktop music player application using JavaFX with an interactive graphical user interface.
- Implemented core functionalities including playlist management, audio playback controls, and file navigation.
- Applied object-oriented design principles to maintain modular and maintainable code.
- Enhanced user experience with responsive UI elements and efficient media handling.

Digital Estate Vault

- Designed a secure digital vault system to manage and store sensitive digital assets such as passwords, documents, and cryptocurrency credentials.
- Implemented authentication mechanisms and encryption concepts to enhance security and data privacy.
- Focused on solving the problem of digital asset management and inheritance in the modern digital ecosystem.
- Structured the system architecture for scalability and future cloud integration.

Certifications

- Infosys Certification on JAVA
- Oracle Cloud Infrastructure Certification
- Infosys Certification on JavaScript

Additional Information

- Strong interest in backend development, distributed systems, and software architecture.
- Continuously learning modern frameworks and technologies to improve software engineering expertise.
- Active participant in technical communities, hackathons, and collaborative development environments.
